	2750 x 1830	✓	✓	✓

SupaWood's fine wood fibres, mixed with synthetic resin, are consolidated under heat and pressure to produce a top quality, versatile board. SupaWood is able to be moulded, embossed, edge profiled and routed, thanks to its homogenous construction. Its surface allows it to be painted, laminated, foiled, veneered, printed, varnished and stained.

Plywood is homogenic in structure, which allows for a stronger and more stable board in both directions. Plywood is constructed by bonding together an odd number of veneers with the grain of each layer being perpendicular to each other. The two outer layers of the board always run parallel to one another. Plywood is bonded with a Class 1 adhesive (SABS 0183) and is available in different grades suitable for both interior and exterior applications:- Interior Urea Formaldehyde (U/F) and Exterior Phenol Formaldehyde (P/F)

Pine Shutterboard	2440 x 1220		●

Shutterply is a cross ply product constructed by bonding together an odd number of veneers with the grain of each layer being perpendicular to each other. Shutterply differs from Shutterboard in that it offers more strength in the width of the product. Shutterboard is a combination of veneer faced product with a timber core product. The veneer is bonded to the timbercore centre with a Phenol Formaldehyde adhesive, usually C-C faces. This 5-ply board differs from Shutterply in that its strength lies in its length. Pine Blockboard is manufactured entirely from Pine - both face veneers and laminated block core.

Oriented Strand Board (OSB / 3 Standard Stock Item)	2500 x 1250	✓	✓	✓	✓	✓

Oriented Strand Board (OSB) is a performance-rated structural panel engineered for uniformity and strength. OSB is manufactured from sustainable, fast-growing trees such as Aspen, Poplar, Southern yellow pine, mixed hardwoods and others. Logs are cut to length, debarked and processed into precise strands. These strands are dried, sorted and mixed with wax and a waterproof exterior-type binder. OSB is widely used in the housing industry.
